In addition to the above specifications—all new Skoda 136 Rapid Coupes are fitted with the following as standard equipment. Laminated windscreen, halogen headlamps, hazard warning lights, twin reversing lights, twin rear foglights, fold down rear seat, inertia reel front and rear seat belts, carpeting throughout with loose rubber mats in front footwells, heater/demister with two speed fan, adjustable side window demisting vents, two speed plus intermittent windscreen wipers, electric four jet windscreen washers, rear mud flaps, locking petrol cap, trip meter, dipping interior mirror, manual choke, inspection lamp socket, lights on warning device, low fuel warning light and a comprehensive tool kit including spare bulbs and fuses.

THE SPORTY 136 RAPID COUPE

The fastback sporting lines of the 136 Rapid Coupe make this model the most attractive in the Skoda range. It shares the same rear end standard equipment of mud flaps, twin fog lamps and twin reversing lights as the saloons. It is also the basis for specialist after sale conversion to an even more sporting Cabriolet.

Although not providing the same sleeping berths as in most of the saloon models, the reclining seats still offer full relaxation.
